

We are happy to announce that Vodafone is our preferred telecom partner. We have mutually agreed to float a range of tariff plans for our employees and the member brokers to provide them with the flexibility of choosing the one best suited for their needs.

All the employees and broker members who join the scheme will be under common user group (CUG) and will enjoy the benefit of communicating with each other absolutely free of cost. They will also have the advantage of competitive rates, which will considerably reduce the telecom spend.

The detailed tariff plan is as follows:
